## Photo Consent Form

Dear Parents,

Early Childhood School of Georgetown will photograph children as they work and play. Photos will be displayed in photo albums, on our website blog or individual classrooms within our school.

The purpose of our photographs is so that parents, as well as the teachers will be able to have a lasting memory of the learning experiences the children will have while in our care.

In the event that photographs are used for commercial purposes, such as press releases in our local paper, parents will be notified via telephone or email within the information relating to the commercial use and a request for consent to participate will be required.

Once obtained, the verbal/written permission will be placed in your child's file.

I have read and fully understand the paragraph above. I, \_\_\_\_\_  
give ECSG staff permission to photograph my child at ECSG.
